Dear Parishioners,

Recently, an acoustical engineer conducted an analysis of the interior of our renovated church, to determine how we can improve the sound quality. He informed us that the sound system works well. At the same time, the acoustics measure 4 seconds reverberation. The recommended reverberation for a concert hall is 2 seconds. The resulting echo makes it difficult to understand the spoken word. Accordingly, we are investigating what sound absorbing materials we can apply to reduce the echo and improve intelligibility.

## Thanksgiving Turkey Drive Can You Help?

In place of our regular food collection for the Catholic Charities

Emergency Assistance Center, Holy Cross will be collecting **FROZEN TURKEYS** for the Food Pantry on the weekend of **Nov. 19/20**. Rather than shop for groceries, please purchase one frozen turkey. Simply place it in the designated container, located in the narthex, when you come to Mass. We can only accept frozen turkeys after the Masses that weekend. In gratitude, let us share our abundance with others

### PARISH SUPPORT UPDATE:

24% of the parish has responded as of November 3<sup>rd</sup> and we're still counting! It's not too late to respond. I would be wonderful to see 40% of the parish participate in this offertory program. Help us achieve this goal.

Parishioners who have responded have increased their gift by an average of 28%!

Thank you to all who are praying for the success of this offertory program and who have responded so generously.

### **Wills, Trusts and Estate Planning Seminar**

Is your Will or Trust up to date? The time to review your estate planning is now. Educate yourself about the steps you can take to avoid probate court, name the people you want to care for your minor children, oversee your business affairs or health care decisions, minimize your taxes and direct your charitable giving.

**All are welcome to this free seminar on Monday, November 14, at 2:00 or 7:00 PM, in Room 1.**

Kevin Petracek, from Parman & Easterday, is the presenter. The program is hosted by the Church of the Holy Cross and the Catholic Foundation of Northeast Kansas. *Contact the Church Office to register and let us know that you are planning to attend!*

### *Stewardship Reflection*      *November 13, 2016*

*When some were speaking about the temple, how it was adorned with beautiful stones and gifts dedicated to God, Jesus said, "As for these things that you see, the days will come when not one stone will be left upon another; all will be thrown down." Luke 21:5-6*

Jesus' words remind us how easy it is to take confidence in things that will not last. Instead, he invites us to invest in eternal things, like love, care for another, generosity, mutual support, acceptance.

### Marriage Minute

“It’s the end of the world as we know it!” The old R.E.M. song sums up the fears of the disciples in this Sunday’s Gospel. The disciples wanted to know if they would receive a sign, so they could ostensibly be prepared for the end. There is a hint of procrastination in the disciple’s question. It is almost as if they were asking, “Do I have more time to do what I want before I follow you?”

What if we lived our life with such intentionality and focus that we gave a radical “yes” to Jesus’ invitation to follow him? What would that look like in our marriage? Would our children know that we love them unconditionally? Would our spouse know that they were truly the most important person in our life? How would we prioritize our time?

This week, leave nothing on the table, and make sure your loved ones know how you truly feel!

Estimados Feligreses,

Recientemente, un ingeniero acústico realizó un análisis del interior de nuestra iglesia renovada, para determinar cómo podemos mejorar la calidad del sonido. Nos informó que el sistema de sonido funciona bien. Al mismo tiempo, la acústica mide 4 segundos de reverberación. La reverberación recomendada para una sala de conciertos es de 2 segundos. El eco resultante dificulta la comprensión de la palabra hablada. En consecuencia, estamos investigando qué materiales de absorción acústica podemos aplicar para reducir el eco y mejorar la inteligibilidad.
